

CHAW THARAPHI HTAY

Full-Stack Developer

Yangon, Myanmar | +95 9971025162 | chawtharaphihtay462@gmail.com | GitHub: github.com/chawtharaphihtay

PROFESSIONAL SUMMARY

Full-Stack Developer with 7+ years of experience building and deploying production web and mobile applications across Laravel, Vue.js, React, Next.js, and React Native. Skilled at delivering complete features end to end — backend services, RESTful APIs, and responsive frontend interfaces — for CRM, CMS, e-commerce, and customer-engagement platforms. Experienced in production deployment (Nginx) and cross-functional collaboration with team leads and engineers. Focused on building stable, maintainable, user-friendly software.

TECHNICAL SKILLS

Frontend: React.js, Next.js (App Router), Vue.js, Inertia.js, Vite, Redux, Zustand, React Context API, Tailwind CSS, Bootstrap, HTML, CSS, JavaScript (ES6+)

Mobile: React Native, React Native CLI

Backend: Laravel, Filament, PHP, MySQL

Tools & Practices: Git/GitHub, Nginx, Role-Based Access Control, Responsive & Cross-Device UI, SEO Optimization

PROFESSIONAL EXPERIENCE

Minn Shin Saw Co., Ltd Feb 2026 – Present

Full-Stack Developer | Yangon, Myanmar

- Developed end-to-end full-stack features using Laravel, Vue.js, Inertia.js, Filament, REST APIs, and relational databases, covering backend services, frontend interfaces, and administration.
- Designed and implemented reusable CRUD, CMS, reporting, filtering, pagination, and data-management modules for multiple business applications.
- Built and integrated RESTful APIs with frontend applications, implementing validation, business logic, file management, and error handling.
- Developed responsive web interfaces and resolved cross-device UI/UX and functional issues, ensuring consistent experiences across desktop and mobile.
- Managed features across multiple projects from backend implementation through frontend integration, testing, bug fixing, code quality improvements, and deployment.

Myanmar Software Integrated Solutions Feb 2024 – Feb 2026

React / React Native Developer | Yangon, Myanmar

- Built and maintained information-based websites using Next.js (App Router) with SEO-friendly structure and responsive UI.
- Developed a customer loyalty mobile application using React Native CLI, supporting rewards, promotions, and engagement features.
- Maintained two eCommerce websites on Next.js (App Router), including payment integration.
- Built a Training Attendance Management System with role-based dashboards, reports, and attendance tracking, using Vite.
- Actively maintained a job search website, delivering UI updates and feature improvements based on customer requirements.
- Improved front-end load times by implementing code-splitting and lazy loading in Vite, optimizing image assets, and reducing overall JavaScript bundle size.
- Collaborated with team lead and team members to follow best practices and improve application stability and maintainability.

- Handled production deployment of Next.js websites, configuring Nginx reverse proxy and managing build updates and service restarts.

World Wide Myanmar Co., Ltd Jun 2020 – Jan 2024

WordPress (CMS) Developer | Yangon, Myanmar

- Developed and customized WordPress websites under senior guidance, integrating WooCommerce and essential plugins.
- Customized PHP-based themes and templates to meet project requirements and improve functionality.
- Edited and optimized images for websites using Photoshop to improve visual appeal and performance.

CDE Co., Ltd (Galaxie AI) Sep 2019 – May 2020

Junior API Engineer | Yangon, Myanmar

- Collaborated with the team to modify and enhance existing APIs built in Golang to meet project requirements.
- Restructured an application service API with Golang, working closely with senior engineers and a UI engineer to ship new features.
- Wrote clear technical documentation of API changes and service components for smooth knowledge transfer.

MTCS IT Solution Co., Ltd May 2019 – Aug 2019

PHP Developer (Internship) | Yangon, Myanmar

- Collected requirements and implemented the setup module for a Point of Sale (POS) system.
- Developed a Travel & Tour demo project using HTML, CSS, JavaScript, Bootstrap, PHP, and MySQL (phpMyAdmin).
